Cookie Policy

Introduction

Evergreen Wealth Corporation and its wholly owned subsidiaries, Evergreen Wealth Advisors Corporation and Evergreen.ai ("Evergreen," "we," "us," or "our"), use cookies and similar technologies to operate our websites, analyze usage, and support personalized marketing. This Cookie Policy explains how we use cookies and how you can manage them. **You can change your cookie preferences at any time by selecting Cookie Settings in the footer of any page on our website.**

Please read this Cookie Policy together with our General Privacy Policy and Privacy Notices, which contain additional disclosures about how we collect, use, and share Personal Information.

What Are Cookies?

Cookies are small text files that websites store on your device to help the site function, improve usability, and enable analytics and personalization. In this policy, "cookies" also includes related technologies such as pixels, web beacons, SDKs, and local storage. The specific cookies we use change over time, and cookies set by third-party service providers are governed by those providers' own privacy policies.

Your Consent

Your consent choices depend on where you're located. In states that permit an opt-out approach to cookie consent, non-essential cookies are enabled by default when you use our websites, and you can opt out at any time (see "Managing Your Cookie Preferences" below). Where applicable law requires explicit consent, we identify those visitors by location and obtain affirmative consent before setting the applicable cookies.

Your preferences are stored for 12 months unless you update them sooner. If you clear your cookies or use a different browser or device, you will need to set your preferences again.

How We Use Cookies

1. **Essential Cookies.** Essential for the operation of our websites, enabling core functionality such as security, authentication, and user preferences. These cookies are always active and cannot be disabled, since our websites cannot function without them.
2. **Targeted Advertising Cookies.** Support personalized marketing, including identifying visitors and delivering relevant ads and content. This includes third-party services that may infer or identify visitors based on on-site behavior and other signals, even before you submit any information (see "Visitor Identification & Data Enhancement" below). Enabled by default; you can opt out at any time.

3. **Personalization Cookies**. Allow us to remember choices you make, such as your username, preferred language, or the region you are in, and to provide enhanced, more personalized features, such as local weather or traffic information, based on your general location and past interactions with our websites. Enabled by default; you can opt out at any time.
4. **Analytics Cookies.** Help us understand how visitors use our websites so we can improve performance and user experience. Enabled by default; you can opt out at any time.

In some states, certain analytics or marketing activities may be treated as a "sale," "sharing," or "targeted advertising" of personal information. You can opt out of these activities using any of the methods below.

Managing Your Cookie Preferences

You can change your cookie preferences at any time by:

- Selecting **Cookie Settings** in the footer of any page on our website to manage your preferences by cookie category;
- Enabling **Global Privacy Control (GPC)** or another state-recognized universal opt-out signal in your browser or through a supported browser extension. GPC is a setting, built into some browsers or added via extension, that automatically tells websites you visit not to sell or share your information. You can find a current list of supported browsers and extensions at globalprivacycontrol.org. Where required by law (such as in California and Colorado), a valid signal opts you out of "sale," "sharing," and "targeted advertising," and we will disable Targeted Advertising Cookies and the associated Analytics Cookies for that browser and device;
- Blocking or deleting cookies through your browser or device settings. Note that blocking or deleting cookies may affect the availability or functionality of certain website features.

Additional opt-out rights may be available under state law. See our General Privacy Policy for how to exercise your rights.

Visitor Identification & Data Enhancement

Some of our marketing and personalization services identify website visitors based on technical signals, such as IP address, device information, and cookies, and match that information to known contact records for marketing and analytics purposes, even before you submit any information yourself. You can opt out through Cookie Settings (disable Targeted Advertising Cookies) or a valid universal opt-out signal such as GPC. These practices are described in detail in our General Privacy Policy.

Changes to This Policy

We may update this Cookie Policy from time to time in response to legal, technical, or operational changes. Any changes will be posted here with an updated effective date, consistent with how we describe updates in our General Privacy Policy.
